

EXTRUSION TOOLING

YOUR BUSINESS IS EXTRUSION

ALL YOU NEED IS

Trends for Extrusion at extru[net]

## BENEFIT

FAST TOOL-CHANGEOVER  
KURZE RÜSTZEITEN

HIGH PROCESS STABILITY  
HOHE PROZESSSTABILITÄT

ENERGY SAVING DUE LOW VACUUM  
ENERGIEEFFIZIENZ DURCH GERINGES VACUUM

& LESS WATER CONSUMPTION  
& KÜHLWASSEREINSPARUNG

EXTENDED SERVICE LIFE  
AUSGEDEHNTE LEBENSDAUER

## TOOLING SYSTEMS extrunet

**extrunet** guarantees you absolutely superb processing quality and expertise for the production of your specified extrusion tools.

**extrunet** garantiert Ihnen bei der Herstellung Ihrer spezifizierten Extrusionswerkzeuge absolutes Fachwissen und Bearbeitungsgüte.

All **extrunet tooling systems** guarantee the fabrication of main and auxiliary profiles which are based on product and process stability. Combined with minimum energy and water consumption and in addition low material wear, fusion into the highest standard.

All the tooling systems are combinable with post-co-extrusion and set important standards with a variety of innovative features.

Alle **extrunet Werkzeugsysteme** gewährleisten die Fabrikation von Haupt- und Nebenprofilen, wobei Produkt- und Prozessstabilität das Fundament bilden. Kombiniert mit minimalem Energie- und Kühlwasserverbrauch verschmelzen diese zum höchsten Standard.

Die Werkzeugsysteme sind allesamt mit Post-Co-Extrusion kombinierbar und setzen mit diversen neuartigen Features bedeutende Maßstäbe.
